The Amish Craftsman Interior Design Trade Program

*Limitations Should Never Dictate Your Design. Ever.
Stop Settling for Almost Perfect.*

Your clients love your work --that's why they hired you. The problem is, there are times when you're at the mercy of vendors. Some are great! But, a lot aren't. Big box furniture stores carrying mass produced furniture can offer a quick fix, but they'll never be able to completely fit your design vision. Most of the time you can make it work, but it's frustrating and disappointing to see a lot of the same furniture everywhere. On top of that, the options are limited and the quality isn't the best.

You shouldn't settle for something not quite right or be forced to find a stopgap for the design you imagined. You (and your client) deserve to see your designs come to life exactly the way you envisioned.

*We offer customizable
American made furniture
that will last for generations.*

As a boutique showroom for custom solid wood and upholstered furniture, we can help you realize that dream. Since 2006 we've grown into one of the most successful made to order furniture stores on the Gulf Coast. Now, for the first time ever, we're offering exclusive benefits to interior designers. We're here to help spark your imagination and realize your vision.

Quality Furniture that Fits Your Design Vision

Your client deserves your best. We'll build the furniture you're dreaming of.

Your clients trust you to bring out the best about what they love about their home. That's great. If you're looking for unique, made in America, custom furniture that's where we come in.

We work a little differently than the other furniture stores you're used to. We believe in relationships and these relationships are built on trust. When we do our job right, we're your partner -- because when you look good, we look good. We stake our reputation on every single piece that comes out of our doors. The Amish Craftsman isn't a giant chain furniture operation. We build our pieces knowing that if we do a great job that you'll work with us again and again.

We don't want to sell you something, we want to be the partner who has your back.

You don't have to wonder how a piece will look at the end of the design process. We understand this is no place for guesswork.

How to Work with Us

Custom means getting it right every single time -- from start to finish.

The Amish Craftsman has been making award winning custom furniture since 2006. During that time, we've seen how people fall in love with their furniture and how it can become a part of their family history. We love how interior designers tell a story with a well designed room and we would be honored to be part of that.

We understand that these are important pieces, not only for you, but also for the client that will have them in their home for decades to come. That's why we're completely transparent with how our process works. It's always our goal to be easy to work with and to build trust with our designers. Trust only develops when you build a relationship.

Craftsmanship Warranty & Guardsman Protection Plan

Our American made solid wood furniture is built by Amish craftsmen and finished by hand. We stand behind every piece of furniture that we sell. If there is a craftsmanship issue, we take care of it. It's that simple. You can eliminate those problems from your list of issues to chase. The good news is that craftsmanship defects aren't what usually go wrong. Problems usually stem from life's little accidents. This is why we offer our Guardsman Protection Plan.

Guardsman Gold Complete Furniture & Rug Plan, ensures that your client's furniture will remain blemish-free for a very long time. This furniture protection plan gives you total peace of mind. Whether the furniture is fabric, leather, or wood – all damage and stains are covered by the Guardsman Gold Complete Furniture Plan. Your clients can rest assured that even though there's no planning for life, you do have a plan for when accidents do happen.

Trusted Partnership

Maybe you've only worked with large furniture stores before. We get it, we do things a little different. We've spent years developing our process and building relationships -- and that's exactly what sets us apart.
