

Furniture Shopping Checklist

Furniture shopping can be so overwhelming, but it doesn't have to be with a little prep work beforehand.

THINK AHEAD

These are the things you need to think about before coming into the store:

- What is staying? What is going? We want to know EVERYTHING about your room!
- How do you want the room to feel?
- What do you like the most and the least about the space?
- Do you have a furniture style in mind?
- How will you mainly be using the space?
- Who will be using the space?
- What are the 3 most important things to you about this room?
- What are the 3 most important things to you about this specific piece of furniture?
- When do you want this project to be completed? What is your timeframe?
- Do you have a budget in mind? How much do you want to invest in this project?
- Who else will be participating in the project? Is there anyone you want to include in the decision making? If so, when do you want to bring them in?
- How long have you been working on this project? Have you seen pieces shopping that you liked? Are there inspiration pictures you want to bring to show us?

COME PREPARED

In a perfect world, these are the things you can bring with you before coming into the store (if you have them...if not, we'll work with what we have):

- Photos of the space or floor plans
- Paint color samples or paint information
- Room measurements (include window placement, door placement, etc)
- Flooring samples or photos
- Cabinetry photos
- Photos of rugs, furniture, or accessories we need to complement
- Drawers or shelves of existing furniture we need to complement/match

NOTES
